

## Engage with Ease: Convert Conversations into App Sign-Ups

This document highlights the key features and benefits of the MedAdvisor app, designed to assist pharmacies in engaging customers and encouraging app sign-ups effectively.

### Your eScript Wallet

**“Keep all your electronic prescriptions in one place and get notified when they’re running low.”**

### NDSS Products Ordering

**“Save time and pre-order your NDSS products through our app.”**

### Ready Scripts

**“Have your scripts ready to collect when you arrive at the pharmacy by ordering them on our app.”**

### Access Prescription Information

**“Access information about your prescription medications in the app.”**

### Easy Script Management

**“We have an app which lets you see all of the scripts you keep on file at our pharmacy.”**

### Order OTC Products

**“Order common over-the-counter products through the app.”**

### User-Friendly and Free

**“It’s easy and free to create an account.”**

### Convenience at Home

**“Save time and order medications from the comfort of your home or work.”**

### Carer Mode

**“You can manage scripts and set reminders for those you care for with our app.”**

### Stay Connected

**“Message us via the app to say you will be in at a certain time or to add an OTC item to your basket.”**
